# Corvane Group Holdings Ltd.

Ethical due-diligence assessment, desk research (template b), 2026-11-03. Draft prepared by the AI agent for staff review. Every risk call is a proposal; a person decides.

## At a glance

| | | |
|---|---|---|
| Proposed risk level | **MEDIUM** | 2 of 6 answers indicate a risk |
| Needs your judgement | 4 | answers could not be settled |
| If every unclear were a risk | **HIGH** | |
| Suggested next step | Request a full ethical check (guide 2.1), then decision using template e. | |
| Decided by | Function Director or Regional Director | |

## Risks indicated (2)

| Q | Finding | Key evidence | Why not "no" |
|---|---|---|---|
| Q5 | **Media, NGO or public campaigns**<br>An active campaign or allegation targets the organisation; it is unproven. | **Allegation**: Agua Viva Collective [E-C4]<br>**Org. response**: Corvane Group Holdings Ltd. [E-C5] | The campaign is active, unresolved, and backed by a credible source or an official process on the same issue. |
| Q3 | **Operations in low- or middle-income countries**<br>Operations or supply chain in Peru. | **Background**: Altiplano Resources Inc. [E-C9]<br>**Background**: Corvane Group Holdings Ltd. [E-C8]<br>**Background**: Andean Business Review [E-C2] | Guide 1.4 counts operations in Peru as a potential risk, and the organisation's own or independent sources confirm them. |

## Needs your judgement (4)

| Q | Finding | Decide | Why neither answer was ruled out |
|---|---|---|---|
| Q2 | **Impact on community water, sanitation and hygiene**<br>Water concerns have been raised but none is established. | Do these unproven water concerns affect Ethical Standard 1? Ask the organisation or the regulator for the outcome. | **Not "yes":** Nothing is established: the allegations are unproven; the investigation has no outcome yet; the company named is not confirmed as part of the organisation.<br>**Not "no":** Unresolved water concerns have been raised by an authority or the community. |
| Q4 | **Investigations in the last 10 years**<br>An investigation concerns 'Corvane Minerales S.A.C.'; its link to the organisation is not confirmed. | Is the investigated company part of the organisation today? Check the company registry. | **Not "yes":** 'Corvane Minerales S.A.C.' is not confirmed as part of the organisation.<br>**Not "no":** An open investigation exists into a company with a closely matching name. |
| Q6 | **Anything else relevant**<br>Sources name 'Corvane Minerales S.A.C.', which may or may not belong to the organisation. | Confirm the current group structure (subsidiaries and former names). | **Not "yes":** Only an unconfirmed name match; no other issue was found.<br>**Not "no":** The group's structure is unresolved, which affects how other answers should be read. |
| Q1 | **High-risk or excluded sectors**<br>The group has had an extractives business; whether it still owns it is disputed. | Is the sale of the high-risk business complete, and on what date? Ask for the closing documents or a registry extract. | **Not "yes":** Ownership is disputed: the organisation says the business was sold, while other sources say the sale is not complete.<br>**Not "no":** The link existed and its end is not confirmed by any independent source. |

## No issues found (0)

None.

## Issues over time (1)

| Issue | Now | First reported | Outcome | Timeline |
|---|---|---|---|---|
| **I1** Water and environment | Under investigation | OEFA (Peru environmental enforcement agency), 2025-08-12 | not found in sources searched | 2025-08-12: Under investigation [E-C3]<br>2025-09-03: Reported (alleged) [E-C4] |

## Evidence cited (8, most serious first)

| ID | Type | Source | Quote | What it proves / does not prove |
|---|---|---|---|---|
| E-C3 | Investigation | OEFA (Peru environmental enforcement agency)<br>12 Aug 2025, Third-party public source | “OEFA has opened an administrative investigation into Corvane Minerales S.A.C. for possible discharge of untreated drilling water into a tributary of the Chillon river near the Huarani exploration camp.” | Safe: OEFA (Peru environmental enforcement agency) opened a case concerning Corvane Minerales S.A.C. (August 2025).<br>Not safe: That 'Corvane Minerales S.A.C.' is part of Corvane Group Holdings Ltd.: the link is not confirmed.<br>Not safe: That any wrongdoing occurred: no outcome is reported. |
| E-C4 | Allegation | Agua Viva Collective<br>03 Sep 2025, Third-party public source | “Agua Viva alleges contamination and calls on international donors to cut ties with Corvane until the water is tested.” | Safe: Agua Viva Collective made this claim in September 2025.<br>Not safe: That the claim is true or proven.<br>Not safe: That any independent source confirms it. |
| E-C5 | Org. response | Corvane Group Holdings Ltd.<br>10 Sep 2025, Partner organisation | “Corvane Minerals S.A. has not been part of Corvane Group since the sale to Altiplano Resources was completed in December 2024.” | Safe: Corvane Group Holdings Ltd. states this position (September 2025).<br>Not safe: That the statement is accurate: it is the organisation's own account. |
| E-C9 | Background | Altiplano Resources Inc.<br>04 Nov 2025, Third-party public source | “Altiplano Resources Inc. expects to complete its acquisition of Corvane Minerales S.A.C. from Corvane Group Holdings Ltd. in the first quarter of 2026, once the transfer is entered in Peru's mining registry.” | Safe: Altiplano Resources Inc. reports this (November 2025).<br>Not safe: That the ownership change has been completed. |
| E-C6 | Background | Lima Economic Daily<br>21 Oct 2025, Third-party public source | “Corvane Minerales, the exploration unit of Canada's Corvane Group, remains under Corvane ownership because the sale to Altiplano Resources is still waiting for a mining registry approval, according to two people familiar with the deal.” | Safe: Lima Economic Daily reports this (October 2025).<br>Not safe: That the ownership change has been completed. |
| E-C8 | Background | Corvane Group Holdings Ltd.<br>28 Mar 2024, Partner organisation | “Revenue in 2023 came 61 percent from Canada, 24 percent from Chile and 15 percent from Peru, where our mineral exploration services support third-party mining projects.” | Safe: Corvane Group Holdings Ltd. describes itself this way (March 2024).<br>Not safe: That this self-description has been independently verified. |
| E-C2 | Background | Andean Business Review<br>19 Feb 2024, Third-party public source | “Corvane Group has agreed to sell its mining exploration unit, Corvane Minerals S.A., to Altiplano Resources.” | Safe: Andean Business Review reports this (February 2024).<br>Not safe: That the ownership change has been completed. |
| E-C1 | Background | Corvane Group Holdings Ltd.<br>30 May 2023, Partner organisation | “Group companies: Corvane Engineering Ltd. (Canada), Corvane Infra Chile SpA (Chile) and Corvane Minerals S.A. (mineral exploration services, Peru).” | Safe: Corvane Group Holdings Ltd. describes itself this way (May 2023).<br>Not safe: That this self-description has been independently verified. |

## Limits of this research

33 standard searches, 4 follow-up actions by the researcher; 8 evidence items kept, 1 set aside. A quiet search is not a clean result.
- Court databases, company registries and sanctions lists were not searched directly.
- Up to 10 results per search were reviewed; guide 1.3 suggests the first two pages of 'All' and 'News'.
- Non-English sources and scanned PDFs (which need OCR) were not covered.
- I1 Water and environment: no outcome found in the sources searched. Ask the organisation, or check the regulator or court register.
- Source C7 set aside: About a different organisation with a similar name (namesake).

## Open questions about the rules

- Fossil fuels were treated as excluded. Policy 0.0 s3.3 excludes them, but guides 1.1 and 4.1 do not list them. Which applies?
- Alcohol was treated as a risk area. Template a lists it; template b does not. Which applies?
